

# Climate Action Kits

Empower students to take climate action with turnkey coding and robotics kits and curriculum-aligned lesson plans.

## STEM education for a brighter future

### Curriculum-Aligned

Aligned to provincial and territorial curriculum standards

### Maximize Class Time

Single-class lessons, backed with a 2-year warranty

### Easy-To-Use

Intuitive hardware and step-by-step tutorials

### No Student Login

Easily access content through a login-free browser-based platform

### Grades 3 to 12

Support students as they grow with a learning continuum

### Differentiated Learning

Accessible and challenging for all learning levels

# 1

## Hardware

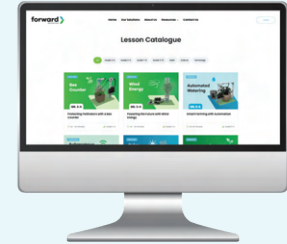

The Climate Action Kit includes all the sensors, motors, building blocks and components to complete a variety of project-based lessons on multiple topics.

# 2

## Platform

Each kit includes access to our online learning platform featuring classroom-ready lessons and extensions for grades 3-12.

# 3

## Tutorials

Follow step-by-step building and coding tutorials to bring projects to life using block-based, Python or JavaScript coding languages.

Climate Action Kit

**\$225**

- ✓ Grades 3 to 12
- ✓ 70 Pieces
- ✓ 15+ Lesson Plans
- ✓ 2-year Warranty

Electric Vehicle Kit

**\$85**

- ✓ Grades 7 to 12
- ✓ 38 Pieces
- ✓ 6+ Lesson Plans
- ✓ 1-year Limited Warranty

Hydroponics Kit

**\$45**

- ✓ Grades 5 to 8
- ✓ 21 Pieces
- ✓ 3+ Lesson Plans
- ✓ 1-year Limited Warranty

Wind Turbine Kit

**\$45**

- ✓ Grades 3 to 6
- ✓ 25 Pieces
- ✓ 3+ Lesson Plans
- ✓ 1-year Limited Warranty

Prices listed in USD
